Dear Richard

#### **Anzac Ship Project**

Just a note to record our thanks for the successful completion of the above project, with the final sailing now discharged on time in Melbourne.

The incident free management of the last twelve shipments from Whangarei to Melbourne is to be commended, all of which was achieved within the budget set three years ago.

This level of performance is a credit to your Project Management skills.

We look forward to our continued working relationship with the Owens Group into the future.

Yours sincerely

A handwritten signature in blue ink, appearing to read "Brett Wilson".
